

## Practical exercise #2: analysis of a call and match making project/call

---

All professional organisations of the public, voluntary, and private sectors are eligible for a European grant. As a start-up, there are several European funding programmes in your activity sector that are suited for your project. Setting up a specific approach and taking the time to analyse the calls precisely will help you identify the right opportunity and verify that your organisation is properly eligible to it.

### **Guidelines:**

- 1. Gather back in groups (5 groups of 4 Start-ups)*
- 2. Find of the matching topic online & analysis (deadline, type of actions, budget, specific features, keywords...) (30 min)*
- 3. Update of project sheet accordingly (30 min)*

Call	Project – Expectations – Questions
Deadline	
Keywords	
Challenges	
Subtopic	
Scope	
Expected impact	
Cross cutting priorities	
Type of action	
Budget	
Specific requirements	

<p>Description of why chosen as best opportunity for the project</p>
